Certified Nursing Assistant

Did you Know....

...that you can meet your 'Health' graduation requirement and earn 3 high school credits with this WaNIC program?

...that you can take this program if you are a junior or senior in high school?

...that you may be able to earn up to 8 college credits through Tech Prep?

Career Advancement:

Licensed Practical Nurse; Registered Nurse; Nurse Practitioner; Physician Assistant.

The program will include:

- Patient care skills
- CPR/first aid
- Nutrition
- Basic anatomy, physiology and medical terminology
- Disease pathology
- Safety and infection control
- Human Development
- Preventative and restorative care
- Professional ethics and legal responsibilities
- Career exploration, job skills development
- Internships at care facilities, hospitals and specialty sites.

Great clinical sites, guest speakers, field trips and leadership activities make this course invaluable for students considering careers in a healthcare setting.

For more information, and to access the program application, please go to: www.wanic.org.
